

Name: Leonard

Surname: Langa

Student No: ST10125760

Module Introduction to Research for ICT

Activity 4.3.1

### **Article 1: Online Learning and Student Performance**

**Applies:** Validity and Reliability

**Description:**

- Validity ensures the study measures what it is supposed to measure
- Reliability ensures consistent results

**Evidence:**

“A structured questionnaire was used” = reliability

“The study measured student performance” = validity

---

### **Article 2: Teachers’ Experiences with Technology**

**Applies:** Trustworthiness

**Description:**

Trustworthiness includes:

- Credibility
- Dependability
- Confirmability

**Evidence:**

“Interviews were recorded and analysed carefully” = dependability

“Participants’ views were presented accurately” = credibility

---

### **Article 3: Employee Engagement**

**Applies:** Validity, Reliability, and Trustworthiness

**Description:**

Mixed methods require:

- Validity and reliability for survey data
- Trustworthiness for interview data

**Evidence:**

“Questionnaires and interviews were used”

“Data was analysed systematically”

---
